SUBJECT: UFO Sighting, 16 August 1965, Little Rock, Arkansas

8 SEP 1965

TO: Hq USAF SAFOICC (Mrs Hunt)  
Wash D C 20330

[REDACTED] has requested an evaluation of his report on the night of 16 August 1965 over Little Rock, Arkansas. This observation is evaluated as a satellite. The description, duration and direction of flight are in accord with this analysis. The zig-zag flight can be attributed to an illusion as one light passes another, or atmospheric conditions, such as an inversion. There are more than thirty satellites and satellite components in orbit which are visible to the naked eye.

the sighting  
was at about  
7:35 P.M.  
Monday, August, 16  
1965.

The object looked  
like a large star it  
had the color of a neon light  
very slightly ~~bluish~~ white  
blueish

Dear Sirs,

I am very interested in the manned  
space program and any thing ~~con~~ having to do with  
space or UFO's. I have seen more than 1 but this is the  
first I have reported. I know a good deal about things like this,  
and I think it is an extraterrestrial vehicle

P.S. please send an  
answer to my report soon.

thanks
